To whom it may concern,

I hereby confirm that Mr Dimitry Demin was involved in the following projects at my professorship:

04.2014 (80%): Rose Pavilion - Concept, development and prototype realisation of the media architecture unit.

01.2015 (60%): Collaboration platform for the construction industry
AlgoTecture KTI (now Innosuisse) application with industry partner
WaltGalmarini AG

01.2016 (60%): Collaboration platform for the construction industry
AlgoTecture KTI (now Innosuisse) Application with industry partner Cadwork
Informatik CI AG

I found Mr. Demin to be highly competent, dedicated, and assertive in his work. As our research focus evolved, it naturally diverged from his specific interests. I sincerely wish him all the best and much success in his future endeavors.

Yours sincerely

Prof. Dr. Ludger Hovestadt
